

Encompass Health

Rehabilitation Hospital of **Sarasota**

ANNUAL MEDICAL CEU DEMENTIA TRAINING

Town Square University Parkway is partnering with Encompass Rehab and the State College of Florida to host an educational training for your team. Educational talks by:

- Dr. Jeffrey Cameron completed his residency in Physical medicine and rehabilitation, specialized in neurologic rehabilitation and served as the Spinal Cord Injury Program Director at Encompass Rehab.
- Tam Cummings, PhD national educator, author, Gerontologist, renowned speaker, dementia expert, professional caregiver trainer and family consultant.
- Dr. Julie Bezold, OTD, OTR/L, she is the occupational therapy assistant program director and associate professor at the State College of Florida.

We want to help your staff and medical team have all the resources they need to guarantee that the seniors in our community get the best possible care when living with a cognitive impairment. Space is limited!

TRAINING AGENDA

Get your team the training they need to be successful with our increasing senior population & plug into valuable resources locally.

Thursday, July 11th event starts at 5:00 PM

Dr. Jeffrey Cameron - Healthy Aging at 5:30 PM

Roles of inflammation, genetics, diet and eating behaviors, exercise, autophagy, senescent cells and senolytics, medications and supplements, mental health, sleep and blood donation and how all of this plays a part in overall health.

Tam Cummings, PhD, Gerontologist - Staging Dementia at 6:30 PM

Dementia expert and experienced caregivers trainer offering in person education helping medical professionals understand cognitive impairments and the stages of dementia.

Dr. Julie Bezold, OTD, OTR/L - Fall Prevention Strategies for Individuals with Dementia at 7:30 PM

People living with dementia have an increased risk of falls. This will address how the cognitive and physiological changes in dementia can impact fall risk and discuss strategies for environmental adaptations to reduce fall risks.

Event Includes

Food and drinks will be available at 5 PM. Education will start at 5:30 PM. Additional questions, information and resources will be discussed following the educational presentations.
